ROUTE RIDE SCHEDULE AND COORDINATION

NOTE: The *scheduled* ride dates shown for certain of the routes are not intended to imply restriction in any way on riders' choices about which route to take on any given date. The purpose of the scheduling (*assigning of a suggested date*) is to facilitate coordination of volunteer groups that might aim to organize support services -- such as sag wagon and rest/refreshment stops -- for fund-raising opportunity. Having this schedule also enhances the prospect for individual riders to meet others of similar pace and fitness level for company along the way if they so choose.

"Free Wheel Day" simply signifies a route has not been assigned a *suggested date of ride*.

Assembly/Start point Unless otherwise indicated: West Front Street (Highway 26), between cross streets of SW Johnson Avenue and SW Bridge Street (grassed area under large oak tree on south side of Front Street, where are a couple of picnic tables).

Riders are urged to assemble here to (a) learn details of support services that might be provided during the ride, (b) to meet any other riders who'll be sharing the route, and (c) to complete a "Participant Information Form" which documents vital personal safety information.

Suggested start times

Riders are at liberty to exercise personal discretion about departure time, of course, but a start time no later than this is urged for taking advantage of cooler morning temperatures -- especially on days when temperatures are forecast to reach above normal or for the longer, harder routes.

Valley Loop, Route #5 (10:00 AM start)Sunday, June 27
Austin-Ritter Hot Springs, #11 (9:00 AM start).....Monday, June 28
High Vista Traverse, #22 (9:00 AM start)Tuesday, June 29
